N°. 328.

WEDNESDAY, *Auguſt* 7, 1751.

MADRID, April 27.

THE Council has been employed for ſome Days in examining a Memorial preſented by Mr. Keene, concerning the better regulating of the Navigation of the Engliſh in the Weſt Indies, ſo as to prevent, by Means of ſome fixed Regulation, the Irregularities which they ſtill complain of, eſpecially in regard to the Right they pretend to have of trading to the Bay of Honduras.

Cracovia, May 2. The laſt Letters from Choczim adviſe, that the Ottoman Porte has prohibited the ſending of Cattle and Corn into Ruſſia, under ſevere Penalties, and that there was great Talk of forming a Camp near that City of 40,000 Ottoman Troops ſome Time this Month. Theſe Letters add, that a Turkiſh Engineer was arrived there to viſit the Fortifications, in order to have them repaired and augmented, the Materials being already provided for that Purpoſe. Other Advices from the Frontiers import, that the Turks continue to erect great Magazines there, both for Proviſions and Stores, and that the Hoſpodar of Walachia is ordered to do the ſame. As to the Tartars, they continue to make Incurſions upon the Ruſſian Territories, but with what Succeſs is not known.

Venice, April 26. The Republic, it is ſaid, is going to enter into a Defenſive Alliance with the Imperial Court, againſt the Turks.

Altena, May 1. Letters from Stockholm adviſe, that a Body of 8000 Swediſh Troops have Orders to hold themſelves ready to march on the firſt Notice.

Stockholm, May 7. It having been reſolved by this Court to build ſome new Forts upon the Frontiers of Finland, and finiſh thoſe that are already begun, eight Regiments of Foot, amounting to about 10,000 Men, will, 'tis ſaid, in Conſequence thereof, be ſent thither to be employed in thoſe Works, in the Place of the Militia, who will be diſcharged.

Hamburg, May 14. They write from Riga, that Veldt-Marſhal Count Lacy, an Iriſhman, died there the 30th of laſt Month, in the eighty fifth Year of his Age. He was Commander in Chief of her Imperial Majeſty's Troops in the Conquered Provinces, and Governor of Riga.

Genoa, May 1. By the laſt Letters from Corſica we are informed, that the Inhabitants of ſeveral Diſtricts have afreſh taken up Arms againſt the French, and have had ſeveral ſharp Skirmiſhes with them, wherein the latter have been ill treated. It is added, that the Marquis de Curzay, the Commander of the French Troops in that Kingdom, finding that he has not a ſufficient Number to prevent the ill Conſequences of this Revolt, has ſent preſſing Inſtances to Verſailles for a new Reinforcement of Troops.

Madrid, April 27. The Court intends to ſend by the Quickſilver Ships, bound to Vera Cruz, Orders to all the Governors in the Spaniſh Weſt-Indies, to narrowly examine into the Complaints, lately made by the Engliſh, and to reſtore ſeveral Ships to them, if it appears upon Examination of theſe Complaints that they were unlawfully ſeized. A Liſt of the above Ships is ſent with the ſaid Orders.

Paris, May 14. The King has charged his Miniſters in ſeveral Courts to declare, that the King of Sweden, by the Act of Security which he gave upon his Acceſſion to the Throne, having done every Thing which could be expected from him, there was Reaſon to hope, that no Power would pretend to require more of his Swediſh Majeſty; and that, if the contrary ſhould happen, his Majeſty would find himſelf under a Neceſſity of giving the Swedes all the Aſſiſtance they ſhould want to maintain their Glory and Independance.

Paris, May 18. We have received a Confirmation of the Hoſtilities committed by the Engliſh againſt the Subjects of this Crown on the Coaſt of Africa, the Particulars of which are as follows: That the French having built a Fort, and ſettled a Factory at Albreda, on the River Gambia, the Engliſh took Umbrage at it, and deemed it an Infraction of the Peace; wherefore, one of their Men of War, attended by ſeveral other Veſſels, cannonaded the Fort, and then landed the beſt Part of their Men, in order to carry the Place by Scalade; but the French, ſeconded by the Natives of the Country, vigorouſly repulſed the Aſſailants. What determined the Engliſh to attack the Fort, was, that the French had fired upon one of their Ships that came to trade in the River Gambia.

Amſterdam, May 8. Advices from the Low Countries continue to intimate, that the French are as faſt as poſſible filling their Magazines upon the Frontiers, and augmenting the Garriſons of the fortified Towns there, which gives the Brabanters great Uneaſineſs, and makes them apprehend another Viſit from the French, whom they now hate, as much as their Ignorance made them love that People heretofore.

Peterſburg, May 4. We hear from Wybourg, that notwithſtanding the Magazines there are ſufficiently ſtock'd with Proviſions already for ſix Months to come, yet all Sorts of Stores are adding daily to the preſent Stock, in order that they may be able to furniſh the adjacent Poſts upon any Emergency, and that her Imperial Majeſty's Forces, who are quarter'd in the ſeveral Parts of Finland, may want for no manner of Supplies of any Kind whatſoever.

Hague, May 12. The whole Conduct of the Miniſtry of Verſailles manifeſtly ſhews, that the French Court is forming grand Projects for improving the Commerce of that Nation in America; and, at the ſame Time, is taking the utmoſt Precautions for ſecuring the Poſſeſſion of L'Iſle Royal or Cape-Breton, and Canada, eſpecially as they are ſo near the Engliſh new and flouriſhing Colony of Nova-Scotia, at which the French look with an envious Eye. They are ſending great Quantities of Ammunition and Artillery, as well to Louiſburg, as to the Mouth of the River of St. Lawrence, which ought to awaken the Attention of the Engliſh; who may be well aſſured, that if the leaſt Miſunderſtanding ſhould happen between the two Nations, the French will ſtrike the firſt Blow in America, by falling on the Britiſh Colonies there. In that Caſe, Nova Scotia would be in great Danger, and Jamaica itſelf would not be entirely ſecure, as the French have always ſuch Numbers of Ships at St. Domingo and Cape-Breton; all which they would not fail to employ in giving a Blow to either of thoſe Places, or any other they ſhould think proper to attack; and ſhould they at any Time ſucceed in an Attempt of this Nature, it would not be eaſy to drive them from the Country they ſhould get Poſſeſſion of.

Madrid, May 11. A French Ship is arrived at Alicant, the Captain whereof reports, that not far from that Port he met with four Algerine Men of War, two of which were fifty or ſixty Gun Ships, and the other two forty Gun Ships; that they appear'd to be very well equipp'd, and that having ſpoke with them, the Officers told him, that they put to Sea in Queſt of the Commandeur de la Cerda. This Commodore, who has only two Men of War and two Xebeques under his Command, is determined not to avoid them, though he has been detained hitherto at Carthagena by contrary Winds; but we hope he will ſoon find an Opportunity to make the Algerines repent of their Expedition. The St. Joſeph and St. Anthony Man of War arrived the 28th of laſt Month at Cadiz, from La Vera Cruz and the Havanna: She had on board 116712 Piaſtres, beſides Chochineal, Tobacco, &c. and is reckoned a very rich Ship.

LONDON.

LONDON.

May 2. Two 40 Gun Men of War are ordered to be built at Woolwich, and three 20 Gun Ships at Chatham.

May 10. From Berlin we hear, that his Prussian Majesty has published a Declaration in Favour of the Asiatic Company, established at Embden, importing, That if hereafter, whether soon or late, a War breaks out in Europe, it shall not occasion the least Prejudice to any Foreigners that may lodge their Money in the Funds of this Company, no not even if their Courts should be at open War with his said Majesty. The same Advices inform us, that they are remounting the Cavalry in Silesia with all possible Diligence.

They write from Vienna, that a Proposition has been made at Court to fix the military Establishment of Hungary at 70,000 National Troops: But though this may be easily done, as that Kingdom is well peopled, it is doubted whether the Government will consent to it, because the Porte continued to give them Assurances of a sincere Desire to live in Peace with all her Neighbours; and yet they acknowlege in the same Breath, that their last Advices from Constantinople bring a Confirmation, that both Turks and Tartars are making great Preparations for a War: However, they are very unwilling to take any Step that might give Umbrage to the Porte, and hasten a Rupture.

The last Letters from Dresden advise, that Sir Charles Hanbury Williams, has great Hopes of succeeding in his Negotiation for a Subsidy Treaty between that Court and the Maritime Powers.

They write from Paris, that their India Company has received an Express from Port L'Orient, with the agreeable News that the Town of Pondicherry, which had been blockaded and besieged several Months by the Nabob of Golconda, with an Army of above fifty Thousand Men, got rid of them in the Month of October last: The Nabob being discouraged at seeing his Army dwindle away to no Purpose before the Town, came to a Resolution to raise the Siege; but the French, sustained by the Indians in their Interest, pursued him as far as Gingy and Mazulipatan, which they made themselves Masters of, and from thence continued their March towards Arcatte, in order to bring the Nabob to Terms of Peace; and they reckoned he would make up Matters with them on their own Conditions, rather than go on with a War, which had already proved so expensive and ruinous to him.

May 11. The Algerines have cut out of a little Port, near Cutrove, eight Neapolitan Vessels, two Genoese, and a large Venetian Ship richly laden.

Yesterday the Society of the Free British Fishery, with their Officers, waited on his Royal Highness the Prince of Wales, and delivered the following Petition:

'The President, Vice President, Council and Society of the 'Free British Fishery, encouraged by his Majesty's Royal 'Approbation, humbly approach your Royal Highness to in-'treat your favourable Acceptance of being their Governor; 'an Honour condescended to by your illustrious and much 'lamented Father, whose princely Virtues were eminently 'conspicuous; by his constant Attention to, and his generous 'Concern for, the Welfare of this Kingdom, and the Prospe-'rity of its Commerce.

'As we considered the Success of this national Undertaking, 'from which the most lasting Advantages are expected, to 'have depended greatly upon his gracious Protection, we can-'not but hope for the same Benefits from the Influence of your 'Royal Highness the Inheritor of all his Virtues; and there-'fore, SIR, we beseech you to take this Fishery under your 'Protection, which will add new Vigour to our Endeavours, 'and prove the most auspicious Omen of its Success.'

To which his Royal Highness was pleased to return the following Answer:

Gentlemen,

'I return you my Thanks for this Mark of your Duty to 'the King, and of your Regard to me. You may be assured, 'I shall always be glad to contribute every Thing in my Pow-'er to the Success of your laudible Attempt for extending the 'Commerce of his Majesty's Subjects.'

After which they all had the Honour of kissing his Royal Highness's Hand.

KINGSTON, in Jamaica, May 11.

By a Vessel which arrived here on Sunday last, we have an Account that two Dutch Sloops which sitted out from this Port about 3 Months ago, for the Spanish Coast, run foul of one another at Sea in the Night, and were greatly damaged; one of them putting in to refit, a little to Windward of Porto Bello, was attacked by a Spanish Guarda Costa; the Sloop made a sort of a running Fight, but unluckily run herself ashore on the Rocks, and was entirely lost, the Captain and most of his Men had just Time to get into the Canoe without taking any Thing with them, but were afterwards taken up by the Spaniards.——The above Vessel, which is a Dutchman, meeting them at Sea, ransomed the Captain for a considerable Sum, and has brought him in here. The other Sloop they can give no Account of, unless she has gone into some Port to refit.

St. JOHN's, In Antigua, May 24.

Between Twelve o'Clock on Sunday Night, and one in the Morning, a very smart Shock of an Earthquake was felt here, and in other Parts of the Island, which lasted but a short Time, and, thank God, did no Damage that we hear of.

Notwithstanding the many Reports we have had of the Neutral Islands being evacuated, a Gentleman who has been lately at Dominico assures us, that the French there are under so little Apprehensions of being obliged to leave it, that they are building Houses and Works extremely fast; and the constant Supply of the Inhabitants which almost daily arrive there from Europe, and the other French Islands, having been so great of late, that they talk in Terms we don't chuse to repeat, in Case there should be any Attempts made to drive them off.

BOSTON.

July 8. By a Vessel from Chinecto we have Advice, that the French are busy at Work in building a large and strong Fort within a Mile and a Half of ours, and that they had fired several Shot from it at his Majesty's Sloop Dove, as she lay at Anchor in a Creek near our Fort: And, that the French Man of War seen some Weeks ago Standing up the Bay of Fundy, was arrived at St. John's River.

Saturday last his Majesty's Ship Success, Lord Colvill, Commander, arrived here from Halifax.

July 15. Last Week Capt. M'Carthy arrived here from Newcastle, who on the 23d of June last, spoke with Capt. Snow, in a Schooner belonging to this Town, bound to Newfoundland, who inform'd Capt. M'Carthy, that he came from Louisburg two Days before, where were five French Men of War of the Line, and that the Day after he came out, he met and spoke with another Ship of War of the same Nation, of 26 Guns, bound to Louisburg; and, that the Report there was, that they were going to take Halifax.

NEW-YORK.

July 15. We have Advice from Albany, that on Thursday, the 20th of June last, a Carpenter's Wife of that City, having been for some Time before uneasy in Mind, and her Husband then from home, went up Stairs, telling her Brother and Sister who were with her, that she would take a Nap; a Gun being in the Room, she tied a String to the Trigger, and setting the Muzzle to her Breast, fired it off, and died instantly: She appeared a Shocking Sight.

Friday last his Excellency our Governor arrived here in good Health from Albany, where he had been to meet the Chiefs of the Six Nations of Indians:——His Excellency arrived there the 20th of last Month, and the greatest Part of the Indians came down in 3 Days after: We hear the Indians were very well pleased at this Meeting, and at the Presents made them; and after promising to keep the Covenant inviolate, returned back with great Satisfaction.

We hear also, That the Presents brought by the Hon. William Bull, Esq; from South-Carolina, were thankfully received by those People; and the Chiefs of the Catawba Indians, who accompanied him, were received very cordially by them, and a Cessation of Arms, in order for a lasting Peace, was mutually agreed on.

We have Advice by private Letters from Rhode-Island, that Capt. Richards arrived there just as the Post came out, in but six Weeks from London; those Letters inform, that his Majesty's Ship Centaur, Capt. Crosby, stationed at this Place, as also the Brig Garland, Capt. Machet, of and from this Port, were both to sail in a Day or two for Nova-Scotia, and from thence to proceed directly here.

July

July 22. Last Friday Night the House of the Widow Tea Eyck, in Broad-street, was broke open by some Rogues, who search'd all the House, whilst the People were asleep, and took away the Shop Drawer with about 30*s.* in Money in it, but nothing else that could be miss'd. The Villains also left the Tongs with a Cole of Fire on the Floor, probably with a Design to set the House on Fire, but by good Providence it went out.

Extract of a private Letter from London, dated May 19, 1751.

---The Parliament has granted the Prince of Wales £. 40,000 a Year to support his Houshold:---The Bill for regulating the Currency in America, is very likely to pass, tho' the Council to be heard about it, has been put off from Time to Time. It is remarked, that when the American Affairs come under their Consideration, great Numbers of the Members withdraw, and scarcely leave enough to make up a House.---'Tis thought they will not rise till June or July.

There never was such Weather known since the Memory of Man, for cold and wet, and 'tis computed that upwards of 600,000 Acres of Land remain unsowed thereby; many Sheep and Lambs dying; one Farmer only has lost 400 Lambs, and Mutton has rose here a Penny a Pound within these few Days; and 'tis said there is going to be an Embargo on Grain. Great Complaints from France, of Damage done by the late Floods. ---Sundry Men of War have lately been put into Commission, and great Subscriptions made towards the British Fishery, of which his Royal Highness Prince George is elected Governor. ---Commodore Rodney is appointed Governor of Newfoundland, and sails in a few Days for that Place.

PHILADELPHIA, July 25.

Last Sunday Evening we had a Gust of Rain and Thunder, when the Lightning fell on the House of John Guy, Carter, near Society Hill, beat that Part of the Chimney which was above the Roof, all to Pieces, flinging the Bricks on all Sides the House; went down the Wall to his Stable adjoining, and therein kill'd four Horses. Fragments of the Wall within the House were also torn off and driven about the Rooms; but did little other Damage than breaking some Panes of Glass, the Woman and Children being unhurt, and the Man only somewhat deafened with the Noise.
